Town Invites Citizens to Share Ideas on Ponoka's Transportation Infrastructure

An Interactive Map Has Been Posted on Town Website for Citizen Input

(October 5, 2018 – Ponoka, Alberta) – The Town of Ponoka wants citizens to share their thoughts and ideas on what's working and what improvements can be made to Ponoka's transportation infrastructure and how people move around the community – whether it's walking, cycling or driving.

The call for public input is part of the process of developing a Transportation Master Plan for Ponoka that will be used to support our community's transportation needs as Ponoka grows and evolves. The Transportation Master Plan will:

- Assess what is currently happening with Ponoka's transportation network
- Address what needs to happen as the community continues to grow and evolve
- Recommend and prioritize projects, improvements and investments in Ponoka's transportation network to manage ongoing and future growth

Citizen input is needed to help the Town develop the best plan possible. An interactive map has been posted on the Town website where citizens can leave their comments and ideas on items such as roadways, intersections, trails and pedestrian pathways.

To use the online interactive map, go to the Town website at www.ponoka.ca and click on the link under 'Ponoka Interactive Map – Transportation Master Plan' on the right-hand side of the page. Then follow the prompts. You can click on the 'User Guide' at the top of the map for quick tips on how to use the map if needed.

Please take a few moments and tell us what you think is working for Ponoka and where we can improve Ponoka's transportation network.
