

Q 11. What impact will the Town's lease costs for the Community Learning Centre project have on my property taxes?

- The Town's lease costs for the new building equate to a municipal property tax increase of 9.75 per cent in the 2018 Budget. However, the Town is examining options to offset any tax increase as much as possible through actions such as selling or leasing Town-owned properties that are considered surplus.
- The Town is currently developing a policy to oversee the possible sale or leasing of surplus Town-owned properties, and to determine which properties may be deemed surplus.
